

I have three subscriptions to XM Satellite Radio and my family and friends subscribe as well. The reason for this because local radio offers poor programming in comparison to satellite radio. We benefit from listening to XM Satellite Radio's traffic and weather channels. Local content should be offered. The NAB shouldn't petition against XM for providing its consumers with what they want.

I urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I deserve.

Thank you!

Jennifer Ruggiero
